

## **Testimonies of SSL Fuel Additive:**

Larry Jansen from Olathe, Kansas was getting 17.75 mpg in his 2001 Ford Taurus 3.0 liter V6 before using the SSL Fuel Additive. After applying SSL, Larry noticed an immediate increase in his gas mileage. He was then getting 2.35 more miles per gallon which came to 20.1 mpg, a **13.5% increase in fuel efficiency**.

With the price of gas in Olathe averaging \$4.00 per gallon, this one 8.5 oz bottle of SSL will save Larry \$339 in gas. (18 gallon tank, 7ml per tank, 250ml per bottle, 35.7 tanks per bottle)

If price of gas remains at this same price, and we subtract the \$45 for the cost of the bottle, **Larry is projected to save \$294 in his future gas purchases with just one bottle of SSL.**

### **Others:**

- Rick Strickland had an **11% increase** in his Mazda MVP. (19 gallon tank, 7ml per tank, 250ml per bottle, 35.7 tanks per bottle) Minus the price of the one bottle (\$45), **Rick is projected to save \$235 on his future gas bill.**
- Dean Jones had a **20% increase** in his 1996 Dodge 1500. (25 gallon tank, 10ml per tank, 250ml per bottle, 25 tanks per bottle) Minus the price of the one bottle (\$45), **Dean is projected to save \$455 on his future gas bill.**

**Diesel:** (Less mpg, but also less amount per gallon and more savings and power)

- Dorsey Edwards of Wellsville Kansas, an independent Truck Driver, , had a **6.5% increase in mpg**. He also says that his truck seem to perform much better. (120 gallon tank, 20ml per tank, 250ml per bottle, 12.5 tanks per bottle) Minus the price of the one bottle (\$45), **Dorsey is projected to save \$334 on his future gas bill.**
